

Alva Independent School District  
Safety and Health Policy Statement

The Alva Independent School District considers Safety and Health Protection an essential part of its daily operation. We will provide and maintain safe and healthful working conditions and establish and insist upon safe work methods and practices at all times.

Safety and Health shall be an integral part of all sections of this educational organization, including support personnel, teachers and administrators. We will strive to continue a very low accident rate.

We will work consistently to maintain safe and healthful working conditions, to adhere to proper operating practices and procedures designed to prevent injury and illness and to comply with federal, state, local consensus standards and district safety and health regulations.

Each level of administration must reflect an interest in district safety and health objectives and is required to set a good example by always observing the rules as a part of the normal work routine, Administration interest must be vocal, visible and continuous.

All employees shall follow safe working practices, obey rules and regulations and work in a way that maintains the high safety and health standards developed and sanctioned by the organization.

We urge all employees to make our safety and health program an integral part of their daily operations so that the total elimination of accidents and injuries will become not just an objective, but a way of life.
