

Instructional Goals
of
Alva Independent School District #001

The Board declares its aim to provide, within the financial limitations set by the community, the best educational opportunities possible to enable all our children to succeed, both personally and as citizens of this state and nation. The Board and all persons associated with the school district will direct their efforts to this end.

The goals of the public schools of the district will be to permit and assist every child to acquire:

1. The greatest possible understanding of himself and an appreciation of his worth as an individual and as a member of society
2. Satisfying and responsible relationships with persons belonging to social, cultural and ethnic groups different from his own
3. A mastery of the basic skills in the use of the language arts -- listening, speaking, writing, reading, spelling, grammar, -- and of mathematics for obtaining information, communicating effectively, thinking critically, reasoning logically and solving problems
4. Basic information pertaining to the principles of the natural, physical, biological and social sciences, the historical record and current events
5. The desire and the ability to express himself creatively in one or more of the fine and creative arts and to appreciate the aesthetic expressions found in the art of others
6. The attitudes associated with responsible citizenship for effective participation in the decision-making process of the public institutions of the community, the state, the nation and the world
7. The ability to conceive, perceive, understand and appreciate the interrelationship of all academic disciplines to enhance and enrich understandings derived in the separate subject areas
8. The knowledge, understandings, skills and appreciations that encourage his responsible, successful and creative participation for effective personal and family living both as a producer and as a consumer

Instructional Goals of Alva Independent Schools - continued

9. The knowledge, habits and attitudes that promote personal health and cleanliness, physical, mental and emotional well-being and cooperation among individuals
10. An understanding of ethical principles and values and to develop an understanding of his own worth, abilities, potentialities and limitations to enable him to take full advantage of life's rewarding opportunities
11. The skills necessary for the successful completion of high school
12. An understanding of career roles, the relatedness of learning experiences to real life and the importance of high school education for placement in a job or in programs in higher education
