

Academic Honesty

One of the important values that the school district has the responsibility of instilling in its students is honesty. To the end that students understand the importance of this value each school site will formulate and publish a statement about academic honesty; what it is, what is dishonest and the consequences of being dishonest. This statement will be formulated by a panel consisting of principal, teachers and parents and will be reviewed prior to start of each year by a group of like composition. At the high school, students will be included in the panel formulating and reviewing the statement. The exact composition of each panel will be established by the building principal.

In all cases the consequences of academic dishonesty will have as a minimum consequence a zero grade on the work that was done dishonestly.
